

SCIENCE
FROM SCIENTISTS

Fund Local

Fund Local asks schools to work with SfS to raise the money required to support the program once impact has been demonstrated.

How Fund Local Works

Science from Scientists pays for first two years from corporation and foundation grants, state endorsements, and private donations.

School pays partial cost in Year 3 and full cost in Year 4+. Funds are raised locally from districts, PTO, local banks, fundraisers, etc.

In times of financial hardship, Science from Scientists is committed to assisting the school.

- ✓ Fund Local was initiated in 2014. Since its initiation, **92% of eligible schools** in Massachusetts are already actively participating.
- ✓ The Fund Local program is designed to ensure that low income schools can continue to participate regardless of financial status.
