In a desire to provide a range of STEM role models for the communities we serve, Science from Scientists encourages and welcomes diversity. As an equal opportunity employer, Science from Scientists does not discriminate in employment opportunities, policies or practices on the basis of race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, marital status, or any other characteristic protected by law. It is our policy to employ persons on the basis of ability, experience, education, and character.

About Science from Scientists

Science from Scientists' mission is to teach and inspire the next generation to identify and solve real-world problems by improving Science, Technology, Engineering, and Mathematics (STEM) literacy. We send real, charismatic scientists into classrooms during school, every other week during the school day throughout the entire academic year to inspire students and improve STEM competency by teaching hands-on, frameworks-relevant lessons to ensure that our nation's youth is competitive globally in STEM.
